What is Hamilton Conte?

The Hamilton Conte collection presents pieces with a diverse mix of cultural and design inspirations, varied materials, and unique personalities.

Escaping typical geometrical design confines, the upholstery collection features dynamic curves that are characteristic throughout the brand's range. In a style that is elegantly relaxed, the furniture, lighting and home accessories ranges also break with tradition using organic forms and textures, surprising combinations of materials, and the marriage of aesthetics with function. Many pieces are a nod to personal anecdotes, people or travels from the designers' lives, and reflect a passion for storytelling.

Through its wide selection of finishes and materials, Hamilton Conte offers the ability to produce personalised items with a bespoke feel, the final product displaying exquisite craftsmanship and striking design.

On the Cover: Our Otero armchair is a surprising piece that brings transparency and visual lightness while providing a comfortable seat. Ideal to create a statement and dynamise any space, it may be used on its own with a fun material or grouped in modules of two, three or more to make a curved sofa.

How does Hamilton Conte adapt to your project?

Known for refined and cosmopolitan interiors, Hamilton Conte's September 2019 presentation at Maison & Objet Paris highlights the brand's beautiful forms and textures through a clean and light presentation.

Traditionally showcasing the richness of dark woods and marbles with sumptuous, plush fabrics in greys and beiges, the brand takes the opportunity to introduce new lighter wood tones, ivory fabrics with beautiful texture that illustrate how versatile the range can be to a variety of aesthetics.

Beyond its typical cosmopolitan interiors, the brand can adapt to more casual environments, minimalist interiors, transitional spaces and beyond. Versatility is a key feature of the range through an array of custom options that may be seen upon the selection of products presented this edition.

Be yourself!

Blas

Imagining how an Italian industrialist's private jet would be equipped in the 1970s helped bring forth the Blas chair. Its combination wood and metal structure confer a refined shape accented by pleated cylindrical cushions that enhance the feel of Milanese style from that era. What best represents your style?
