About us

Created in 2009, Hamilton Conte Paris is a furniture and home accessories brand that draws inspiration from our diverse cultural backgrounds and complementary talents. Combining pragmatism and passionate creativity, we do our best to approach our craft with originality and warmth.

Créée en 2009, Hamilton Conte Paris est une marque de mobilier et d'accessoires qui s'inspire de nos origines culturelles diverses et de nos talents complémentaires. Combinant pragmatisme et créativité passionnée, nous faisons de notre mieux pour aborder ce métier avec originalité et chaleur.

Our creative process takes inspiration from a variety of styles and cultures and is centred on artisanal production and attention to detail. We like to merge design movements from the 1950s to 1970s, from the Americas and Scandinavia, and then add a touch of Parisian flair. Our collection offers all elements of an interior space, and a variety of materials and finishing options can make each piece highly personal.

Notre démarche artistique s'articule autour d'une variété de styles et de cultures ainsi que sur une production artisanale et pointue sur les détails. Nous aimons fusionner les mouvements design des années 1950 à 1970, des Amériques et de la Scandinavie, et y ajouter une touche de style parisien. Notre collection offre tous les éléments d'un intérieur, et une diversité de matériaux et d'options de finitions permettent de personnaliser chaque pièce

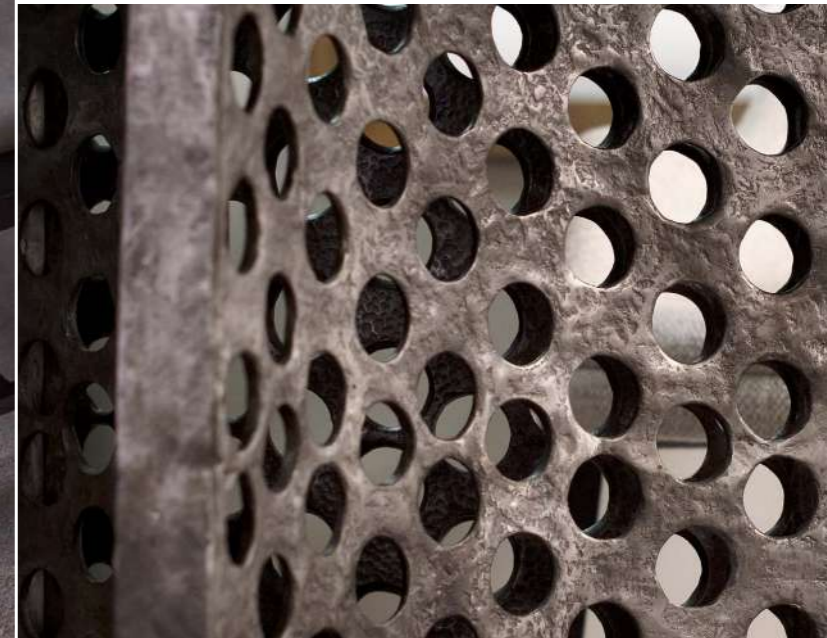

There is a story behind each piece in our collection, and through their ensemble we try to create a universe that is distinct to the brand.

Chaque pièce de notre collection raconte une histoire et, à travers leur ensemble, nous essayons de créer un univers propre à la marque.

NICO

armchair

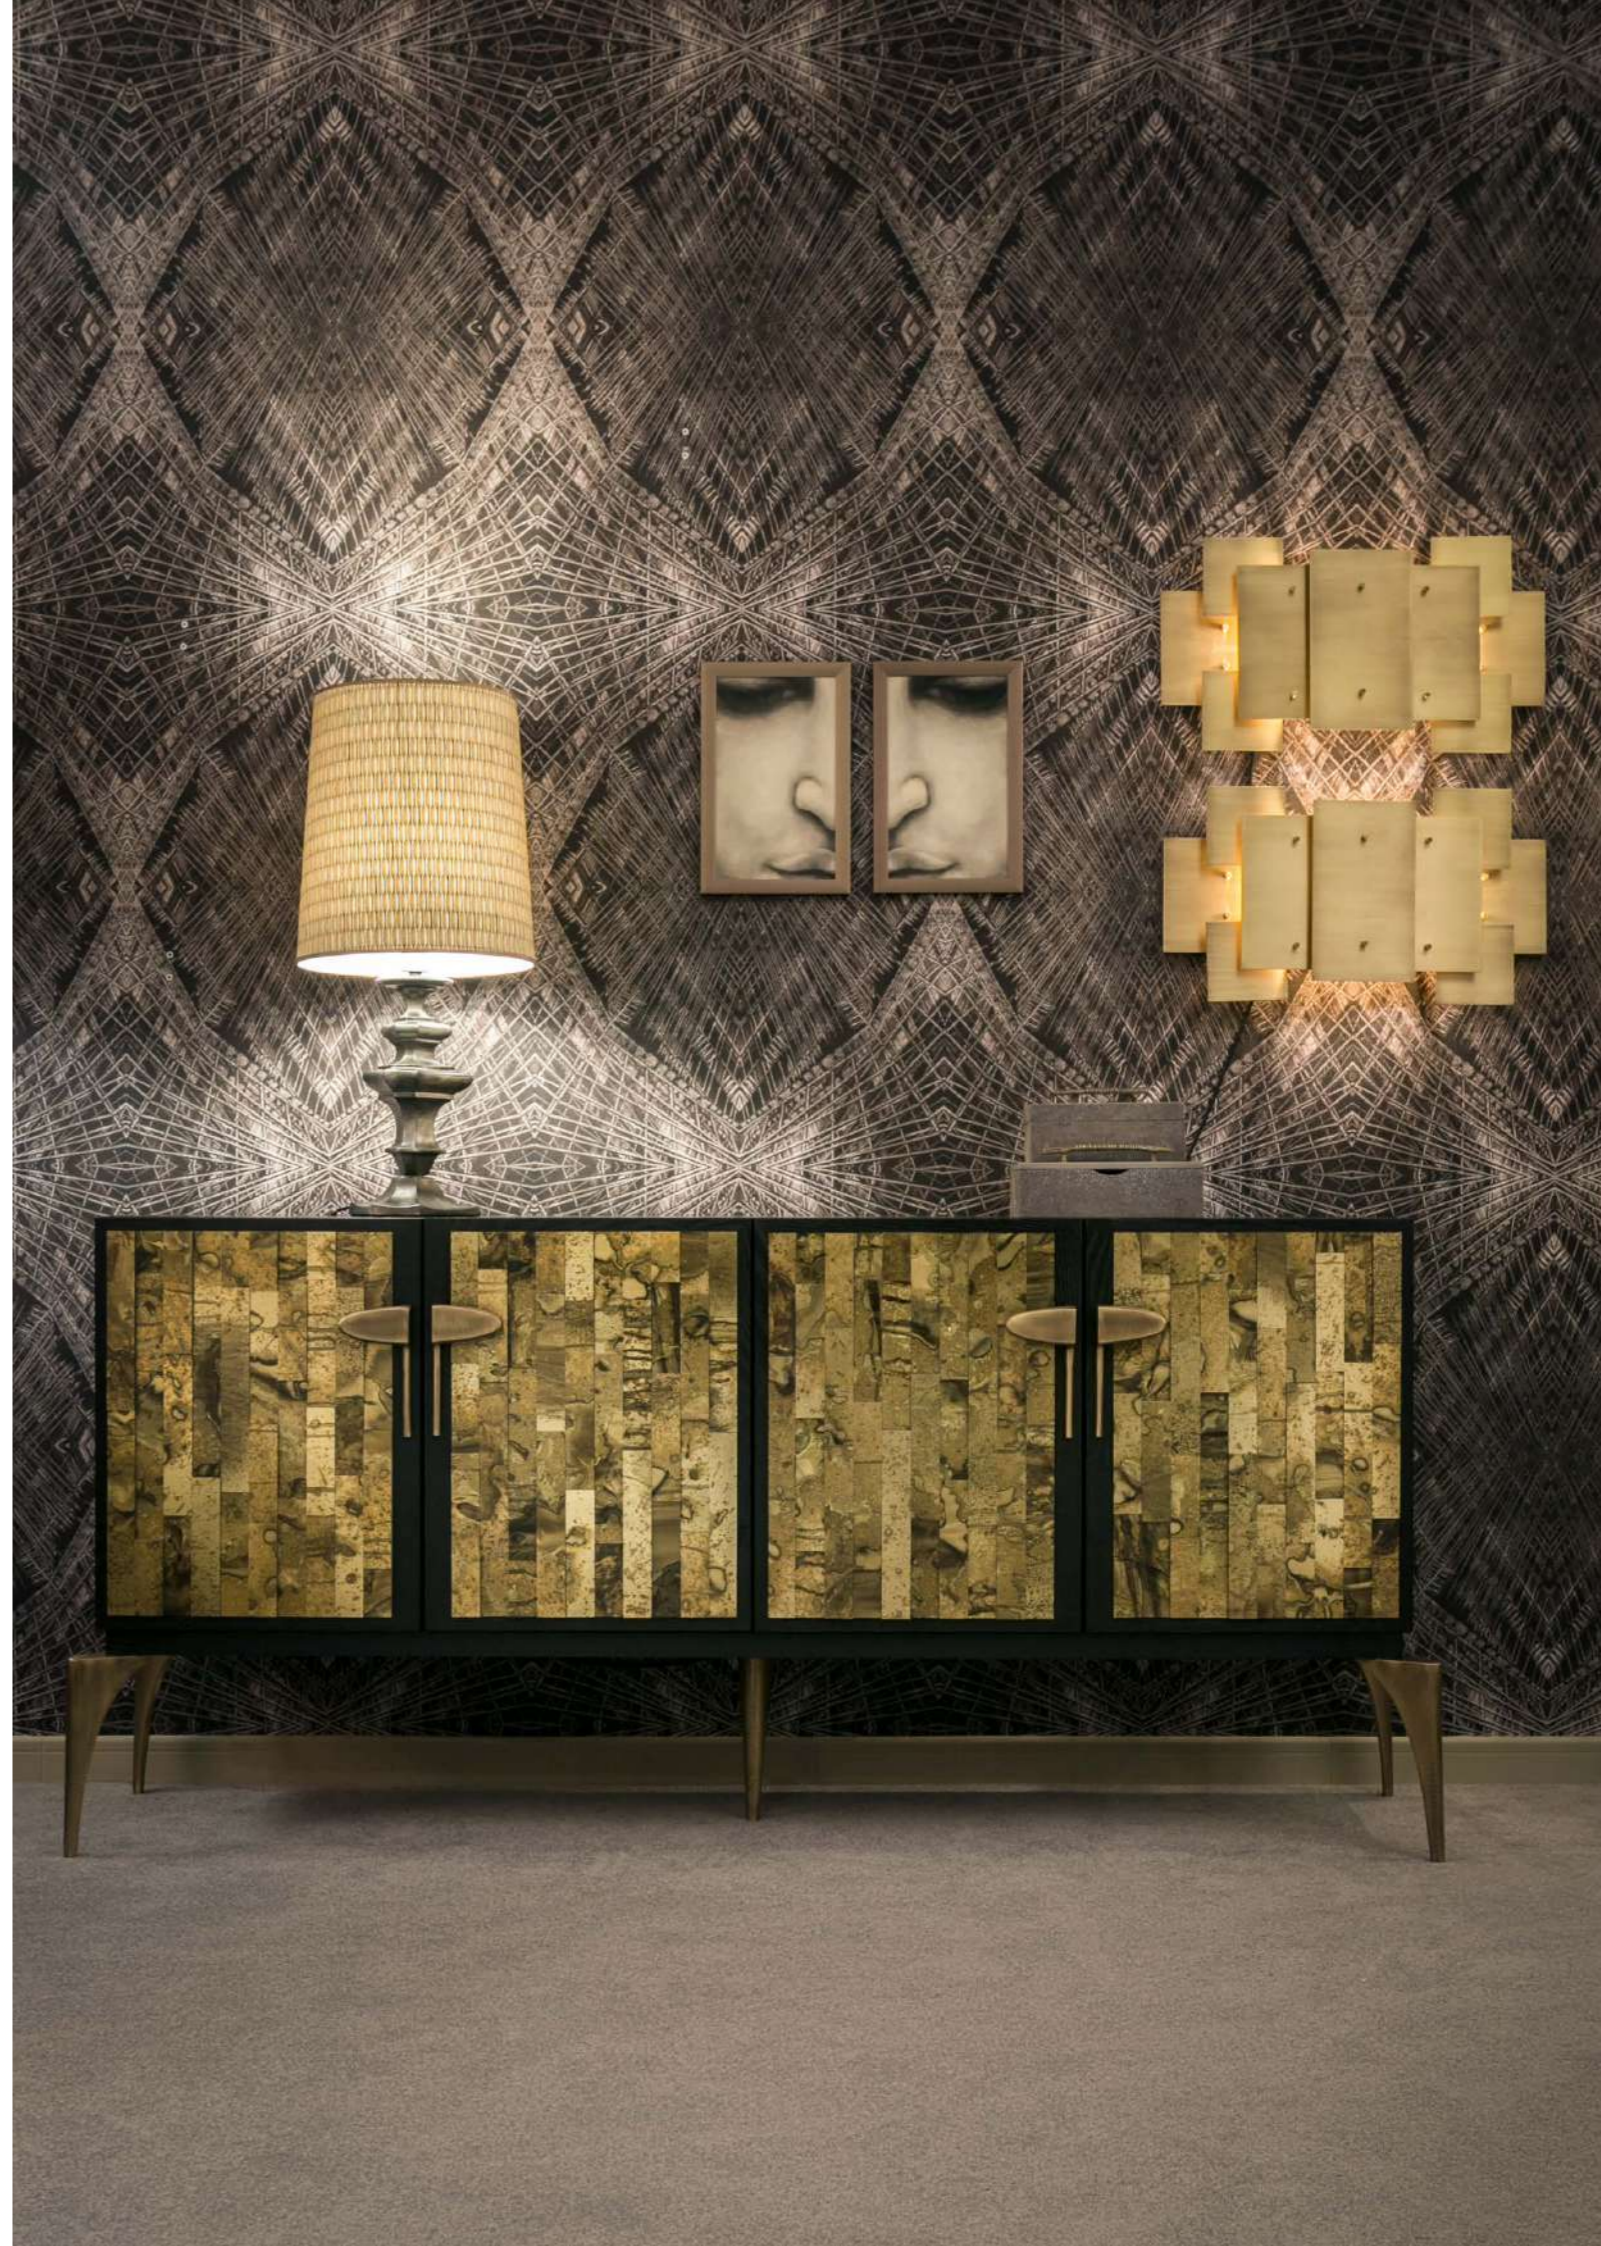

We love working in hammered iron, so it was inevitable that this fabulous textured material would find its way into the seating collection. The Nico chair brings together geometry, organic texture and the curve. It is the ideal mix of eclectic energy and pragmatic functionality.

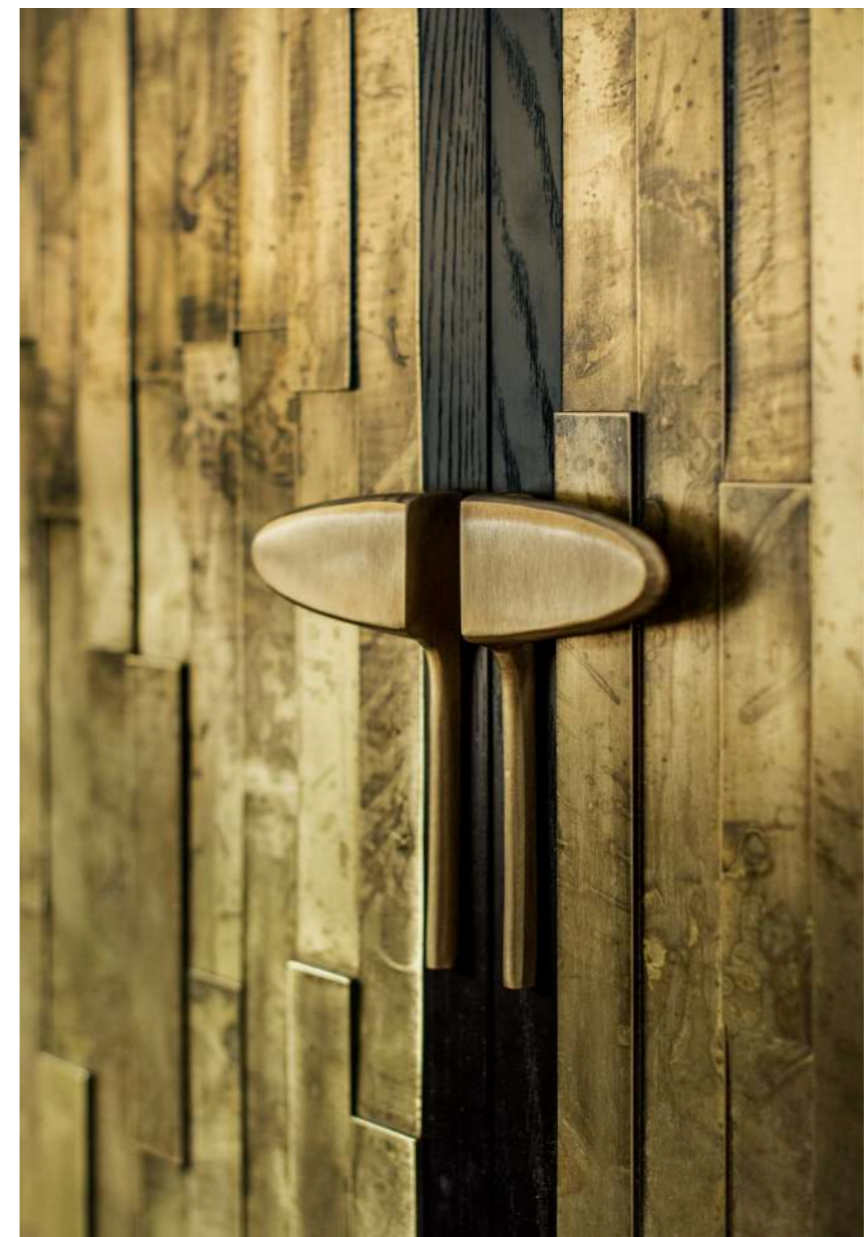

Nous adorons travailler le fer martelé, donc il était inévitable que ce matériau avec sa texture fabuleuse se retrouve également dans notre collection de sièges. La chaise Nico réunit la géométrie, la texture organique et la courbe. Il apporte une association de fonctionnalité pragmatique et d'éclectisme énergique.

SOLATA

chair

This armchair is inspired by the imperial porter chairs once used in the Far East for royals and officials, with obvious adaptations to 21st century life. The name refers to the designer's first childhood experience with Asian culture. Cast brass feet add handmade details as well as a slightly more European feel, accentuating the eclecticism of your interior.

L'inspiration pour ce fauteuil a été puisée dans l'imagerie de l'extrême Orient et les chaises de porteur jadis utilisées pour les familles impériales et les notables, en s'adaptant évidemment à la vie du 21ème siècle. Le nom fait référence à la découverte de la culture asiatique dans l'enfance de notre designer. Les pieds en fonte de laiton apportent des détails fait-main et une touche plus européenne en accentuant l'éclectisme de votre intérieur.

MÁNTIDA

With its entomologically inspired legs, the practical beauty of Mántida will creep its way into your homes and hearts. Its cast aluminium structure is complemented by three choices of surfaces: Emperador marble, glass and a cast aluminium tray.

Avec ses pieds d'inspiration entomologique, la beauté pragmatique de Mántida habitera vos maisons et vos cœurs. Sa structure en fonte d'aluminium s'associe à trois choix de surfaces : marbre Emperador, verre ou plateau en fonte d'aluminium.

DOROTEA

chair

Inspired by Milanese bar chairs of the 1970s and the Austrian style of Josef Hoffman, the Dorotea chair finds its place clearly in the 21st century. Its sculpted wood structure and seductively elegant back make it an ideal pairing for any dining or living room, be it in dining or lounge versions.

Inspirée par les chaises de bar milanaises des années 1970 et le style autrichien de Josef Hoffman, la chaise Dorotea trouve parfaitement sa place au 21ème siècle. Sa structure en bois sculpté au dossier tout en séduction et élégance en fait d'elle l'assise idéale en salle à manger ou salon, qu'il s'agisse de sa version chaise ou fauteuil.

SILAS

console

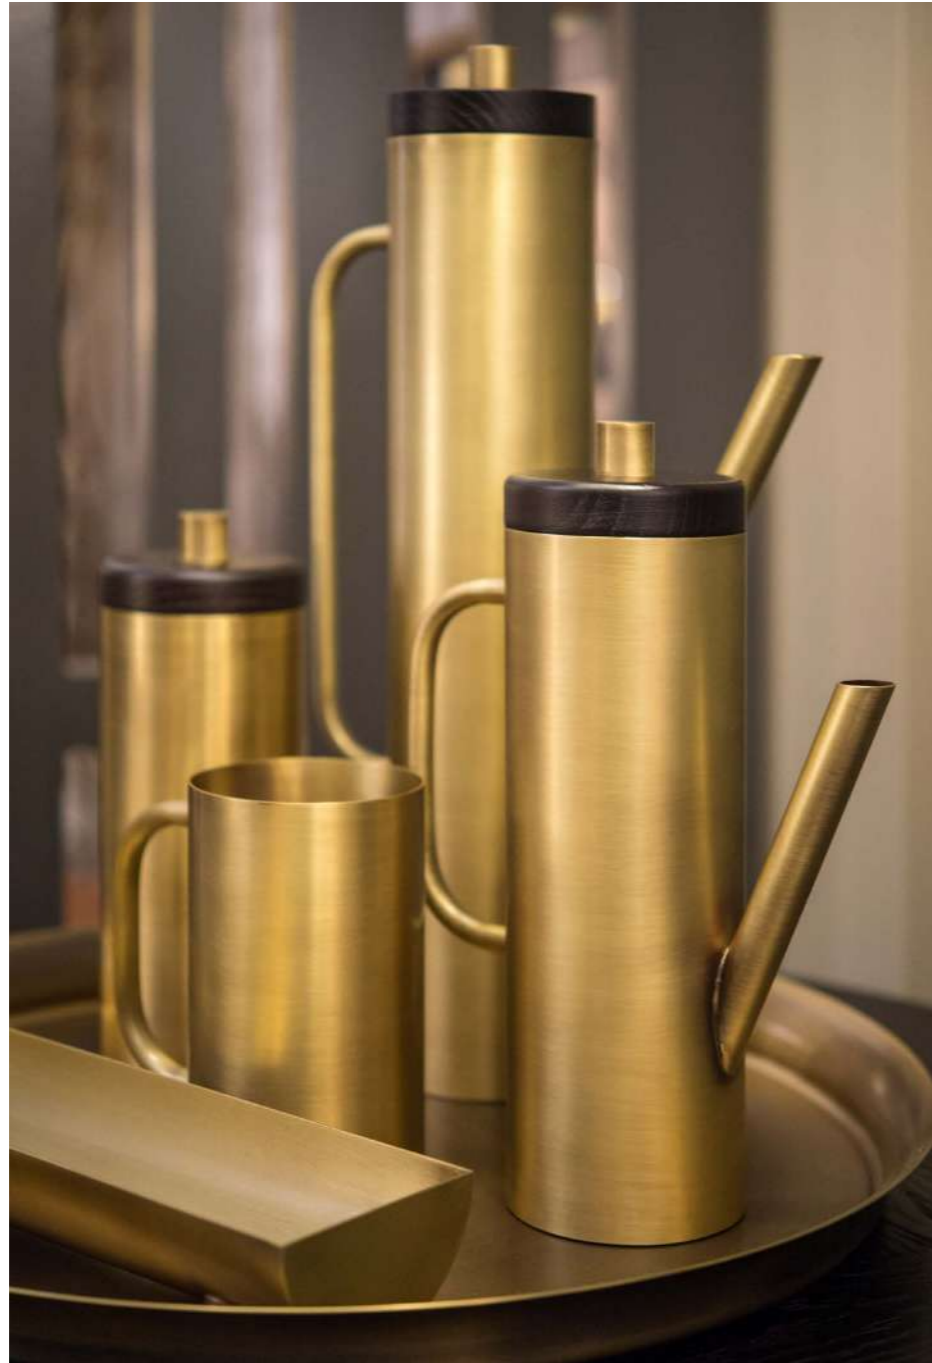

These tables were inspired by the eucalyptus trees of Portugal, and the name is a nod to the Roman God of Forests. The idea was to show the strength of the material: this monolithic structure demonstrating wood in all its massiveness. Contemporary lines and thickness add a strong presence to any interior. The eucalyptus veneered top adds texture and visually lightens the weight of the brushed ash legs. Available in dining, console and cocktail table versions.

Ces tables ont été inspirées par les arbres d'eucalyptus au Portugal, et le nom est un clin d'œil au dieu romain des forêts. L'idée était de mettre en avant la force du matériau, avec une structure monolithique montrant le bois dans toute sa masse. Les lignes contemporaines et l'épaisseur de cette table lui confèrent une forte présence dans tout intérieur. Le plateau en placage d'eucalyptus ajoute de la texture et allège visuellement la base en frêne brossé. Disponible en table de repas, console et table basse.

ETRA

cocktail tables

The Etruscan-inspired hammered iron of these cocktail tables brings a bit of antiquated charm to an otherwise contemporary form. Three different surfaces – glass, Emperador marble and a bronze enamelled iron tray top – allow for visual diversity and texture.

Le fer martelé d'ascendance étrusque de ces tables basses apporte une touche antique à une forme résolument contemporaine. Trois surfaces différentes - verre, marbre Emperador et plateau en fer émaillé bronze - permettent une diversité d'inspirations et de textures.
